On September 17, 2004, Franklin Precision Industry, Inc. celebrated their joint donation with Toyota of \$10,000 to the Boys & Girls Club of Franklin-Simpson. The donation will provide funding for the start-up of the new club in Franklin, Kentucky.

U.S. Congressman Ed Whitfield, who spoke at the event, said: "I commend Franklin Precision and Toyota for their generous contribution to the Boys & Girls Club. These businesses do so much for our community and now they are going the extra mile and helping a wonderful organization."

"I am very pleased to announce that FPI and Toyota are donating \$5,000 each to the Franklin Simpson Boys & Girls Club," said FPI President Takeo Orino. "It is our pleasure to assist the Boys & Girls Club in getting started here in our community. Investing in the future of this community will allow for today's young people to be better leaders and citizens tomorrow."

Franklin Precision Industry, Inc. ("FPI") is a QS-9000 registered supplier of air induction and emission components for the automotive and transportation industries. FPI employs approximately 450 people and produces throttle bodies, charcoal canisters, and fuel pump modules. FPI has manufactured fuel system components for the automotive industry since 1991. FPI and its parent, Aisan Industry Co., have North American offices in Detroit and Los Angeles.
